Subject: Non-Material Changes to Legacy Information
Technology Policies

The "legacy" policies published on the Enterprise Information Technology Publications webpage (<http://itsd.mt.gov/policy/itpolicy.asp>) have undergone a review. Legacy policies are those policies published prior to July 2006. During the review, the following actions were performed:

- Identified and corrected obsolete contact information,
- Identified and corrected references to organizations that have become defunct or have been superseded by other organizations,
- Changed the format of all policies to a common format,
- Made other non-material changes.

This review did not involve any material changes to content of policies. Any material changes that may be determined appropriate in the future will be accomplished in accordance with the [Policy: Establishing and Implementing Statewide Information Technology Policies and Standards](#) and its associated procedure.

The reviewed policies have been re-posted with a common format as .pdf document files.

Please address any questions, comments or concerns to:
